**STATE IDEOLOGY, SCIENCE, AND PSEUDOSCIENCE IN RUSSIA:
BETWEEN THE COSMOS AND THE EARTH**

By **Baasanjav Terbish**

“Baasanjav Terbish is offering us an impressive and original analysis on how parasceince, ideology, and nationalism articulate in Russia’s regions. This book invites us to take seriously what is too often dismissed as marginal, and study how much everyday political legitimacy in Russia is rooted in meaning-producing eclectic ideologies that combine New Age religion, local folklore, and nationhood narratives.”

—Marlene Laruelle, George Washington University

“*Between the Cosmos and the Earth* synthesizes Russia’s ideological projects and intellectual experiments across history, geography, and regime. With its case study of the Russian republic of Kalmykia, a small, Buddhist-practicing region on the country’s southern steppe, this book takes a novel approach to understanding how the Russian state has legitimated itself in the past and today. The end result is wide-ranging and erudite, offering a new perspective on how contemporary Russia has been shaped by its ethnic and ideational diversity.”

—Edward C. Holland, University of Arkansas
